SNP Glue

Flexible, reliable SAP data integration with the cloud

Decrease time to value on your SAP data

For most companies, building a data platform is not a nice to have but a necessity. Organizations distinguish themselves based on the data driven innovations that they can design and implement. However, data – especially SAP data – is still being generated and stored in silos, creating a huge value and accessibility gap between the data and the ability to use it for analytics and innovation.

SNP Glue helps to bridge this value and accessibility gap by smoothly providing the data in real-time, but also in a format that is ready for analytics.

Connecting SAP to the Data Cloud

SAP data is unquestionably business critical, and many companies are turning towards innovative solutions that can potentially marry the best of SAP with the top cloud innovation platforms.

SNP Glue, together with Data Clouds such as Snowflake provide a strong technology platform for data. While not limited to these technologies, they form the foundation of SNP's reference architecture for the integration of SAP data with modern and intelligent use cases. With its flexible and modular Storage Management component, SNP Glue supports connections to 20+ databases and technologies, no matter whether they are deployed on-premise or in the cloud.

Key benefits

- Dedicated native integration to Snowflake, optimized for credit consumption and real time data ingestion

- No hops – directly connect SAP to Snowflake

- SAP certified ABAP add-on for NetWeaver and S/4HANA

- SAP certified with RISE with SAP S/4HANA Cloud

- Loads via SAP Transport protocol or SAP Add-on Installation Tool (SAINT)

- Leverages SAP security, SAP authorization objects, development tools and framework

- Requires no additional hardware - resides in SNP partner namespace on the SAP Netweaver stack

- Data extraction at the application layer level that doesn't require direct database access

- Flexible data access capabilities allow integration of any data on the SAP Netweaver stack

- Agile, high speed real-time and batch execution with advanced change data capture

- Leverage existing SAP skillsets to quickly create and schedule your SAP data integrations

About SNP

SNP helps companies worldwide to unlock the full potential of their SAP data and shape their own tailored journey towards a digital future.

SNP's Data Excellence Platform CrystalBridge® and the BLUE-FIELD™ approach have set a comprehensive industry standard for restructuring and modernizing SAP systems faster and more securely while harnessing data-driven innovations in the cloud. The company works with around 2,600 customers of all sizes and in all industries worldwide, including 21 of the DAX40 and 95 of the Fortune 500. The SNP Group has around 1,400 employees worldwide at over 40 locations in 15 countries. The company is headquartered in Heidelberg, Germany, and generated revenues of EUR 173.4 million in the 2022 fiscal year.
