

ABOUT SNP

SNP is the world's leading data transformation company, with global headquarters in Germany, offices across EMEA, APAC and the Americas, and a significant UKI business with an office in central London. SNP's unique BLUEFIELD™ approach enables companies to rapidly migrate to S/4HANA, retaining their investment in solutions and data while adopting the best of what is new, with no risk to the source system and minimal business interruption.

SNP is a 25-year-old company with the culture and energy of a tech start up. It's a great place for you to accelerate your career.

JOB

Project Manager, responsible for delivering SAP data transformation projects

ROLE SUMMARY

SNP is looking for experienced and professional SAP data migration specialists to join a fast-growing SAP consultancy based in central London. We are looking for ambitious consultants with proven expertise and a strong interest in SAP data migration.

As a project manager at SNP, you will be working with industry-leading SAP transformation software and alongside experienced data migration specialists on cutting-edge SAP projects including S/4HANA. You will be involved in complex data transformation projects on UK and international SAP programmes and be expected to lead by example to the other consultants on the team.

As a project manager you will be expected to demonstrate leadership skills, client facing and commercial capabilities.

This is an opportunity to join a thriving company with ambitious yet sustainable growth plans at an exciting time in their development. The company is focused on long-term customer relationships, quality of delivery, continuous improvement, and people development.

EXPERIENCE AND SKILLS

Candidates will have experience as an SAP project manager including data migration projects.

Required:

- 6-8 years of SAP project management experience
- A cross-modular understanding of SAP ERP functionality

DATA. TRANSFORMATION. EXPERIENCE.

- Experience managing teams of consultants remotely
- Customer oriented and focused on delivering high customer satisfaction through excellent delivery
- Awareness of the big picture and context of his/her team and project within a business and the wider programme
- Driven, enthusiastic, collaborative, pragmatic and diplomatic with a 'can-do' attitude and excellent team player
- Excellent communication skills (written and oral) with proven experience of building strong relationships with client stakeholders
- Commercially strong with the ability to manage to a scope and budget
- A strong problem solver with a pragmatic and tenacious attitude to seek out resolutions
- Driven to continuously improve
- Focused on outcomes not actions

Desirable:

- Experience in bid and pre-sales work to win new business
- Demonstrable experience controlling scope and changes
- S/4HANA experience and/or understanding of the technology and data model changes
- Industry recognised project management qualification, e.g., PRINCE2, SAP Activate.
- Experience operating in a consulting and project delivery business
